## Public Debt Profile for Rep. Luther, House District 62

The Real Cost of Bonds:  
How local debt is driven up by a small minority

Despite the Legislature’s historic \$51 billion investment in property tax relief since 2019, local governments and ISDs have spent Texans’ relief by raising appraisal and passing massive bonds, leading to nearly \$500 billion in local debt, per the Bond Review Board. Texas must reform local taxing entities’ ability to take out massive bond debt and ensure tax relief goes back to taxpayers.

### Total School District Debt in House District 62, as of November 2024

School districts are the largest holder of public debt in Texas, accounting for over \$202 billion of local debt as of November 2024. Instead of focusing on what is important — like improving student outcomes in reading and math — far too many school districts have prioritized bond packages to build stadiums, auditoriums, and facilities that do little to boost academic achievement.

# Bond Election Participation

In Texas, a significant portion of bond elections happen in May — an election date that has very low turnout rates. One way this is demonstrated is by the number of bonds that are passed with fewer than 1,000 votes cast for the bond proposition. Since the year 2000, 62.65% of all of the bonds passed in your district have passed with less than 1,000 votes.

## Total Statewide ISD Bond Debt

Texas spends more money than any other state on new buildings, construction, and capital outlay — over \$14 billion in 2024 alone, according to the U.S. Census. That is more money than California and New York, despite the fact that both of these states have higher labor costs and higher costs for real estate. These expenditures are most often spent on building extravagant-looking schools and auditoriums, as well as football stadiums that exceed \$100 million.

Total Spending on Construction: Comparison by State

Rendering of a Middle School in Prosper ISD:  
Part of a \$2.4 Billion Bond

Crowley Track & Field Complex:  
Cost \$150 Million
